Compare and Contrast

Longer starlit nights transformed by golden sunrises. The stillness of a frozen pond enlivened by the flash of a red cardinal. Snow-blanketed hillsides scattered with bare-branched trees. The stark juxtaposition of winter's scenery is also seen in this season's home collections. Consider sleek wood strip wallpaper paired with a chunky chenille rug, or the interplay of a woven dragon rug and a playful fringed pillow, both steeped in tones of lemony yellow. Our takeaway? As sure as sunlight follows shadow, winter is a study in contrasts. *CWEN DONOVAN*
