IN THE DETAILS

Every piece in Jiun Ho's Privé collection is inherently one of a kind. From design concept to technical craftsmanship—which can include anything from hand-felted upholstery to cabinets with beaded fabric insets—each of the Malaysian-born, San Francisco-based furniture maker's bespoke creations is custom-made to suit a specific project. “As a team, we dedicate countless hours debating and refining the smallest details, including the ones most people might overlook, like the underside of a table or the finish on hidden joints,” he says. “Craftsmanship is the cornerstone of everything we do.”

A sunburst pattern in softwood provides a subtle contrast with the sculptural steel base of the *Iris dining table*.
